

ABUL KHAIR TOBACCO

A CONCERN OF ABUL KHAIR GROUP

Bangladesh's largest local tobacco company and a national market leader. Guided by its integrated "Seed to Smoke" philosophy, AKTCL operates with registered farmers, advanced GLT and manufacturing facilities, and world-class technology. With strong local brands and a growing global export portfolio, AKTCL delivers premium tobacco products and solutions to customers worldwide

About Us

Abul Khair Tobacco Co. Ltd. (AKTCL), established in 1953 with BIRI, is now Bangladesh's largest local tobacco company and a national market leader. Guided by its integrated "**Seed to Smoke**" philosophy, AKTCL works with over **50,000 registered farmers** and operates state-of-the-art Green Leaf Threshing (GLT) and cigarette manufacturing facilities equipped with the latest high-speed technology. The company produces strong local cigarette brands while exporting leaf tobacco, CRES, CUTRAG, DIET, RECON, STEM, and finished cigarettes to international markets. Driven by innovation and a commitment to quality, AKTCL continues to deliver world-class tobacco products and solutions to customers worldwide.

Our Portfolio

BIRI

The first product of AKT, Biri has been crafted with consistent quality and traditional expertise since 1953, offering an authentic smoking experience that continues to be trusted by generations of consumers.

LEAF TOBACCO

Premium tobacco varieties including NC 95, K 326, SPG 28, and Burley are carefully cultivated to ensure consistent quality, superior leaf characteristics, and excellent blending performance.

Our Portfolio

LEAF TOBACCO PRODUCTS

Premium tobacco products including CRES, DIET, Stem, CUTRAG, RECON, and other value-added tobacco materials are expertly processed to ensure consistent quality, superior performance, and reliable solutions for diverse manufacturing and blending requirements.

CIGARETTES

Premium cigarettes in King Size, Super Slims, and Nano formats are manufactured in multiple variants to deliver consistent quality, exceptional taste, and a diverse portfolio that caters to a wide range of consumer preferences.

Facilities of AKTCL

Established in 1993 in Uttam, Rangpur, AKTCL's GLT is a modern tobacco processing facility with a capacity of 10,000 kg per hour. Processing farmer-sourced green tobacco into high-quality lamina and stem products, the plant supports both cigarette manufacturing and exports while ensuring consistent quality as a vital part of AKTCL's Seed to Smoke value chain.

Located in Laksham, AKTCL's modern cigarette manufacturing facility is equipped with the latest high-speed machines from the world's leading equipment suppliers. The factory produces high-quality cigarettes with precision, efficiency, and consistent standards, serving both the domestic market and international export requirements.
